

Ball hitch on front

Electric Machine Compatible

An easier way to move trailers, trailer mounted work platforms, boats on trailer etc. on yards. Thanks to the perfect vision to the ball hitch it is very easy to couple a trailer by just driving the ball under the trailer and locking it in the coupling by lifting the boom of the loader.

Equipped with a combined 50 mm ball hitch/towing pin.

- ✓ **Easier way to couple to and move trailers etc. with Avant**
- ✓ **Best possible field of vision to the trailer enables very precise handling in tight situations**
- ✓ **Easy and fast to mount on Avant**
