Beehive mover

Avant beehive mover is intended basically for loading and transporting of beehive boxes, but it can handle other objects like cardboard boxes as well. The mover can carry as many as 12 beehives at a time. It consists of a mast, a pallet fork that is mounted on the lower end of the mast, and a hydraulic grapple at the upper end of the mast which presses the boxes against the pallet fork. The grapple is equipped with rubber pads which hold the beehives firmly but gently.

The beehive mover can be mounted on all Avant loaders, and if the beehives need to be transported longer distances by truck it is easy to take the Avant on the truck as well and unload and move the beehives at the destination.

The grapple can be set to five different heights between 425 – 1365 mm following the height of the load, and the vertical movement of the grapple is 340 mm. Distance between the rubber pads can be set manually to four different widths between 280 - 730 mm. Max. load on the beehive mover is 1000 kg and max. pressing force is 18 kN, which means it can handle other materials that are on pallet as well. Especially lighter boxes and similar objects which don't stay on the pallet without support are easy to handle with the beehive mover.

- ✓ **Fast and easy way to load and transport beehive boxes**
- ✓ **Can handle also cardboard boxes and similar objects**
- ✓ **Mounts on all Avant loaders**
- ✓ **Equipped with Avant 850 mm pallet fork A21047**

Max. load	1000 kg
Max. pressing force	18 kN
Pallet fork length	850 mm
Grabbing width	280-730 mm (four widths can be set manually)
Grapple height	425 – 1365 mm (five heights can be set manually)
Grapple cylinder stroke	340 mm
Height	1950 mm
Width	1000 mm
Length	960 mm
Weight	160 kg
Product number	A36935
