

Centrifugal sand / salt spreader

Centrifugal sand or salt spreader is the right choice for winter maintenance of large areas. Both the spreading area (2 to 6 meters) and the spreading amount can be adjusted either manually (standard) from the side of the spreader - or electrically from the driver's seat (option). This guarantees fast and efficient spreading.

- ✓ **Fast spreading on large areas**
- ✓ **Spreading width and amount adjustable: manual adjustment as standard, electric adjustment available as an option**
- ✓ **Rear mounting also possible, on 700 and 800 series**

Spreading width	0,8-6 m
Volume	250 l
Max. load	500 kg
Weight	130 kg
Product no.	A21183

Option:
 Electric spreading amount and width adjustment A37301
 * The loader must be equipped with attachment control switch pack (option)
 Hook agitator (for fine sand and salt) 65851
 Chain vibrator/agitator (for gravel and gravel/salt mix) 66378
 Road traffic light kit* (for rear mounted spreader) A441253
 *) Requires the optional 7-pin trailer socket A418817 on the loader, see page 33

Rear mounting is also possible on 700 and 800 series, on the optional attachment mounting plate A441613/A441666 or on the hydraulic rear lift A427547/A438490 (see page 30). It requires the optional auxiliary hydraulics outlet in the rear. If electric spreading amount and width adjustment is fitted, also the optional attachment control switch pack for rear mounted attachments must be installed.
