

Fence mower

Fence mower is the perfect attachment for cutting grass under fences, roadside crash barriers, around trees etc. It can also be used to remove weed from road banks, around cornerstones and near buildings. The fence mower manoeuvres around fence posts easily: when the cutting head comes in contact with the post the extension spring that is mounted between the mower frame and cutting head retracts the cutting head back after touching the post, allowing a smooth operation around the post. The tension and fastening point of the extension spring can be adjusted. In addition, there is a vertical floating system with 4 positions for aligning the cutting head.

Cutting head is equipped with two blades. Its edge is covered with a rubber bumper for damping the impacts. The mower is equipped with a manually turnable arm allowing the cutting head to be turned in several different positions. Cutting head can be mounted pointing either to the right or to the left side. An adjustable support wheel is standard equipment as well.

- ✔ **Perfect attachment for cutting grass under fences, roadside crash barriers, around trees etc.**
- ✔ **Cutting head with 2 blades**
- ✔ **Vertical floating of cutting head**
- ✔ **Cutting head can be mounted pointing to the right or to the left**
- ✔ **Adjustable support wheel as standard**

Cutting width	704 mm
Cutting height	min. 60 mm
Number of blades	2 pcs
Maximum width in working position (cutting head on the right side)	1870 mm
Minimum width in transport position	1172 mm
Weight	122 kg
Product no.	A440199
