

Light material bucket

Electric Machine Compatible

Light material buckets are intended for handling of e.g. snow, saw dust, manure, wood chips and other light materials.

The bottom of a light material bucket is considerably longer and the sides are higher than on a general bucket, which speeds up the work a lot. There are no reinforcement plates inside the bucket which would interfere when loading and emptying, and the sides open forward in a slight angle which guarantees easy and complete emptying of all kinds materials.

- ✓ **Fast and easy moving of light materials**
- ✓ **Excellent visibility to the edge of the bucket**
- ✓ **No reinforcement plates inside the bucket – easy filling and emptying**
- ✓ **High back of the bucket prevents material from falling over the rear edge and guarantees high volume**
- ✓ **Strong cutting edge made of high tensile, abrasion resistant wear steel**
