

Manure fork

Electric Machine Compatible

Avant manure fork is a very useful attachment, destined for detaching and handling of manure and similar materials. The strong tines, made of high tensile forged steel, penetrate also into compacted manure and can carry a heavy load.

- ✔ Strong fork for handling of manure and similar materials
- ✔ Equipped with bolt-on replaceable tines, made of high tensile forged steel

Width	1100 mm
Tine length	1000 mm
Total length	1110 mm
Height	415 mm
Weight	60 kg
Product no	A36038
