Mini digger 180

Electric Machine Compatible

Mini digger 180 features hydraulic boom swing: the boom can be turned 60° to the right or to the left from centerline. This makes the mini digger even more versatile than before:

- By turning the boom to the side the bucket can be emptied without the need of moving and articulating the loader
- The optional tilt adapter makes it possible to dig with the bucket in many different angles, and it is also possible to dig alongside the wall with the boom turned to the side and bucket tilted parallel to the wall

Mini digger 180 is equipped with the same S30 bucket quick attach system as mini digger 150 and backhoe 260, which makes changing of bucket fast and easy - and the bucket can also be mounted pointing forward if necessary. Bucket tilt adapter or hydraulic thumb grab are available as an option. Both cannot be mounted on the mini digger simultaneously.

Because there are two hydraulic functions on the mini digger as standard – boom swing and bucket operation – there is also an electric selector valve for selecting the function. Boom swing and bucket cannot be operated at the same time. The selector valve is controlled with the switches on the optional Opticontrol® control switch pack which is necessary on the loader.

- ✓ **Efficient and handy digging unit, very fast and easy to mount on the loader**
- ✓ **Hydraulic boom swing, ± 60° to the side from centerline**
- ✓ **Max. digging depth 1800 mm**
- ✓ **Digging alongside wall possible with the optional bucket tilt adapter**

Model	180
Max. digging depth	1800 mm
Boom swing angle	±60°
Weight (without bucket)	170 kg
Product no. (without bucket)	A445112
Buckets available	
250 mm	A414301
400 mm	A414304
750 mm	A35230
1000 mm	A35383
Trapezoidal bucket 650 mm	A21638
Trapezoidal bucket 912 mm	A36374

The optional Opticontrol® is required on the loader.

Options:

Bucket tilt adapter A446187 (not when thumb grab A446167)

Thumb grab A446167 (not when bucket tilt adapter A446187)
