

Rotary harrow

Avant rotary harrow is an excellent leveler for lawn beds, yards, gardens etc. – for places where the ground needs to be perfectly levelled. It harrows only the topsoil and gives a very nice finish for sowing. Required output is lower than that of the rotary hoe, which allows also a higher working speed. Working depth is adjusted with the rear field roller which levels the seeding bed during operation. With the optional seeding unit you are able to make a ready lawn surface on one pass.

Rotary harrows are most commonly used for lighter topsoil levelling. The soil is normally not milled as deep or as thoroughly as with a rotary hoe.

- ✓ Professional, efficient rotary harrow for topsoil levelling
- ✓ Top grade finish with just one pass
- ✓ Can be equipped with seeding unit → ready lawn surface in a single pass
- ✓ Requires less power than rotary hoe

Option:
 Seeding unit for 1350 mm model A21085
 Seeding unit for 1500 mm model A21193
 Seeding unit for 1700 mm model A415800
