

# Rotary hoe

Rotary hoe is the right attachment for soil cultivating, seed bed finishing and rotovating. It features direct drive with hydraulic motor mounted directly on the milling shaft. The curved blades guarantee efficient milling of the soil. A vertical grading rake with strong tines in front of the blades traps stones and debris, effectively allowing soil to bury them. This gives a finished seeding bed in a single pass. There is also an adjustable soil scraper blade between the milling shaft and the field roller. Working depth is steplessly adjustable with the rear field roller, up to 150 mm.

- ✓ **Efficient rotary hoe for soil cultivating**
- ✓ **Direct drive with hydraulic motor mounted directly on the milling shaft**
- ✓ **Vertical grading rake with strong tines in front of the blades which traps stones and debris**
- ✓ **Working depth steplessly adjustable with the rear field roller**
- ✓ **Adjustable soil scraper blade between the milling shaft and the field roller**
