

Tree shear

Electric Machine Compatible

Avant tree shear is an efficient and useful tree cutter, intended for forest thinning, tree clearance and similar jobs where smaller trees need to be cut. The strong grapple takes a firm grip of the tree trunk and a hydraulic cylinder pushes the cutting blade against the trunk and cuts it. The tree is then easy and fast to move away with Avant. If needed, the cutting blade can be turned 180 degrees to point backwards. This means it doesn't cut and the unit can be used as a grapple only.

- ✔ **Powerful tree cutter for max. 190 mm diameter trees**
- ✔ **Excellent tool for forest thinning, tree clearance etc.**
- ✔ **Thanks to the strong grapple the tree is easy to take away with Avant**
- ✔ **Can also be used as a grapple only, by turning the cutting blade to point backwards**

Tree diameter	max. 190 mm
Grapple opening	770 mm
Weight	110 kg
